Call for Tenders related to the provision of an Agency Framework Agreement for EUROCONTROL

The European Organisation for the Safety of Air Navigation (EUROCONTROL) was founded in 1960 by six States. It now has 41 Member States. EUROCONTROL's mission is to harmonise and integrate air navigation services in Europe, aiming at the creation of a uniform air traffic management (ATM) system for civil and military Users, in order to achieve the safe, secure, orderly, expeditious and economic flow of traffic throughout Europe, while minimising adverse environmental impact.

EUROCONTROL needs to evolve on a continuous basis and support may be needed for which external resources with specific skills are required, who can be temporarily assigned to projects and activities.

The objective of this Call for Tenders is to establish a **Framework Contract** to set up effective partnerships with selected companies to provide resources or to execute tasks according to specific project needs.

The principle used in the set-up of this Framework Contract is that it defines generic types of work, as well as the potentially required skill domains.

Furthermore, all administrative and contractual provisions will be fixed before the signing of the Framework Contract to allow for a speedy handling of specific requests for performance of tasks or specific support (see below) and avoid discussions on administrative and contractual details at that stage.

This Framework Contract is defined to apply principally to two types of work execution: "Time-based activities" and "Tasking Projects".

The services and tasks can be identified by means of four Categories (or sub-Lots), which each could serve three different (main) Lots.

Lots of the services and tasks: 3: **Human Resources (lot 1), Finance (lot 2) and Information & Communication Technologies (ICT) (lot 3)**

Categories of the services and tasks: 4: **Auditing, Benchmarking, Consulting, Doing (Execution) - ABCD**

Who should tender: Contractors who can propose the services as described above.

Closing date: 15 March 2019 at 3.00 pm (Brussels, Belgium time)
